

MEP Manager

Job Title: MEP Manager

Location: San Francisco

Key Competencies:

Experience in Large projects 250m and above. Projects include Aviation, Hospitality, Hospitals, Stadiums and Large Complex Commercial enterprises.

General Job Description:

Responsible for preconstruction, engineering and field installation of all Mechanical, Electrical, Plumbing (MEP) systems.

Major Duties and Responsibilities:

Specifically relating to the mechanical and electrical systems (e.g. HVAC, Plumbing, Electrical, Low-Voltage, Fire Sprinkler)

Providing expertise to the Business Unit or Region, including information regarding local codes and other requirements.

Acting as liaison and developing and maintaining relationships with engineers, design consultants, subcontractors, suppliers, inspectors, and owner's representatives.

Developing a comprehensive working knowledge and understanding of contract documents.

Overseeing activities of Engineer-MEP, Superintendent-MEP and subordinates and providing performance feedback to the Project Manager.

Ensure strict adherence to ethics and compliance requirements at all times.

Visiting job sites as required to troubleshoot MEP issues and suggest resolutions to problems.

Qualifications:

Bachelor's degree and minimum 10 years' experience with progressively more responsible exposure to design, cost, sequence, logistics and field installations of Mechanical and Electrical systems or equivalent combination of training and experience.

Able to identify design features that command cost premiums and recommend alternatives that deliver comparable or improved function.

Demonstrated ability to present technical material. LEED accreditation preferred.

Very strong oral and written communication skills required. Strong computer skills and a familiarity with Microsoft Office Suite of programs.

Company Profile:

A major International General Contractor based in the USA is going through tremendous growth and is in the process of expanding their executive management team on a national basis. Primary focus is within High-rise, Datacenters, Hospitals, Large Complex Commercial projects, and Aviation.

The company is ranked as one of the largest General Contractors in the world with over \$10B in volume annually.

Your leadership skills ultimately matter, and this will be evident in your daily routine and meetings with team members and subordinates. This company has extremely low turnover, above average compensation, and is one that offers a culture of true work/life balance.

Ultimately, this is a hire for your career over the long term which will allow your personal growth in title and compensation. To find out more about this exciting opportunity, please forward DF DeMers Joint Venture Recruitment a resume or phone number to set up your confidential interview.
